**NOTICE OF PROPOSED AWARD (NOPA)****Regional Climate Impacts and Adaptation Studies for the Natural Gas System
and Other Environmental Related Issues****PON-14-507****~~July 29, 2015~~ April 14, 2016**

On March 24, 2015, the California Energy Commission (Energy Commission) released a competitive solicitation to fund research that addresses natural gas sector climate resilience policy, implementation, and management needs articulated by the Energy Commission's *2014 Integrated Energy Policy Report*, *California's Climate Change Research Plan (2015)*, and *Safeguarding California: Reducing Climate Risk (2013)*. Up to \$2.9 million in Natural Gas Research Program funding is available to fund applications in:

- Group 1: Regional Studies (I-IV) – Investigate Climate Vulnerability of the Natural Gas Energy System and Identify Resilience Options
- Group 2: Assessment of Fugitive Methane Emissions from the Natural Gas System – Commercial Buildings
- Group 3: Probabilistic Seasonal and Decadal Forecasting for the Natural Gas System
- Group 4: Assessment of Current and Potential Environmental Benefits of Residential Solar Water Heating in California, Drawing on Installed Performance and User Experience

The Energy Commission received 12 proposals by the due date of May 26, 2015. Each proposal was screened, reviewed, evaluated and scored using the criteria in the solicitation. Twelve proposals passed the Stage One Application Screening.

The attached "Notice of Proposed Awards" identifies each applicant selected and recommended for funding by Energy Commission staff and includes the recommended funding amount and score. The total amount recommended is ~~\$1,956,064~~ **\$2,556,031**. Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement. If the Energy Commission is unable to timely negotiate and execute a funding agreement with an Applicant, the Energy Commission, at its sole discretion, reserves the right to cancel or otherwise modify the pending award, and award the funds to another applicant.

In addition, the Energy Commission reserves the right to: 1) add to, remove, or shift funding between the different groups if there are insufficient passing proposals in one group and 2) negotiate with successful applicants to modify the project scope, schedule, and/or level of funding.

This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at:

www.energy.ca.gov/contracts/.

For information, please contact Gordon Kashiwagi at (916) 654-5131 or at Gordon.Kashiwagi@energy.ca.gov.
